Project Omega

Project Omega is the Endgame and the last post of their long standing plan that I write about for years. It is the desire of the few to play God over the many. That includes the recent destruction of Hawai and the never ending war in Ukraine.

"Project Omega" isn't a pipe dream; it is already expanding 42-times faster than the internet with unparalleled potential to mint a new swath of millionaires and billionaires. Even Forbes says it's about to unleash "the greatest profit engine in history." Remarkably, "Project Omega" is in its infancy and is already creating revenue opportunities that could uplift American workers onto a well-deserved life of financial freedom.

ELON MUSK'S PROJECT OMEGA

08:31

At the behest of the German government, Rheinmetall is supplying Ukraine with automated reconnaissance systems. These are primarily used for monitoring large areas of terrain with as few personnel as possible. Rheinmetall is cooperating in this project with the Estonian company DefSecIntel. Known as the SurveilSPIRE, these reconnaissance systems consist of mobile surveillance towers with day and night-capable camera equipment, autopiloted mini drones and a control system. The scope of delivery also includes transport vehicles. The order is worth a figure in the double-digit million-euro range. Delivery has already commenced.

Made by Estonia's DefSecIntel, the SurveilSPIRE surveillance towers can be loaded onto trailers and quickly transported to their area of operation. Assembly requires three personnel; operation is fully automated. The system includes wireless links (4G and Starlink) for video transmission to a mobile command post. Solar panels enable sustained operation without power cables or a fuel source. The system relies on autopiloted reconnaissance drones that conduct patrols and mission-specific flights. This enables inspection of detected threats and lets the operator initiate necessary countermeasures.

Rheinmetall is already taking part in several projects in support of Ukraine. On behalf of the German government, for example, Rheinmetall subsidiary Zeppelin Mobile Systeme GmbH is supplying Ukraine this year with a turnkey field hospital. Moreover, along with other defence materiel to help it repel the Russian invasion, Ukraine is taking delivery of 26 brand new high-mobility HX swap-body trucks.

https://www.rheinmetall.com/en/media/news-watch/news/2023/jan-mar/2023-02-28_rheinmetall-supplying-ukraine-with-automated-reconnaissance-systems

SurveilSPIRE is basically the link to STARLINK. It is a system that is capable of fully automated operation which includes automated drones. Now imagine one of those operating inside an automated self driving Truck. Furthermore this system can be upscaled. And it also can be remotely controlled via STARLINK.

But this is by far not all and not the worst.
SurveilSPIRE is the ground link to STARLINK.
The Command and control center.

Then we have these:

Skynex, Skyranger, Skyguard, Skyshield, and Millennium Gun and they compliment each other to provide the militaries with a powerful resistance against the enemy.

So what do we get out of these?

First of all a fully automated autonomously operating Combat System that reports back via STARLINK to anywhere.
But as it stands... to AI.

Then we have the compartmentalization of such weaponry and the build of them at different locations.

This is to ensure that nobody gets the real purpose of their actions.

Which in reality is total control over the Human race.

And as such ISRAEL also plays it's not insignificant part.

This is how such a Command and Control Center looks from the inside.

Here is another video of them showing the Future of AI warfare made in ISRAEL.

And to close the circle NVIDIA you know that already builds AI into Computer chips builds now in Israel a new AI supercomputer...

What did Tolkien tell us?

One Ring to rule them all, One Ring to find them,
One Ring to bring them all, and in the darkness bind them
In the Land of Mordor where the Shadows lie.

This is the AI war.
This is Project Omega.
It is the end for Humanity as we know it.
And all the players are fooled... and Humanity is Hoodwinked to oblivion.

With the Technology as it stands and as projected by the WEF Elon Musk and the world Government we face now this problem:
A self driving Autonomous Station connecting to STARLINK can be deployed into any region establishing a perimeter of Influence anywhere in this world.
With so called AI "Search and destroy" Software which is already established such a system which at the moment is in its infant stages poses the greatest and gravest danger to Humanity that ever has been.

"China's vision is already taking shape as they continue to extend their influence over 5G networks, the Belt and Road Initiative, and consumer apps like TikTok. In the face of this mounting threat, the United States must commit to the ideals of liberty and capitalism, to drive our technological innovation forward and preserve the nations hard-earned global standing."

Are they your own words Fritz? Is that what you really think? Really?

What threat by China? That sounds paranoid and it directly supports the elites "China bad" doesn't it

What ideals of liberty and capitalism are left in the modern US Fritz? Those ideals of liberty evaporated well over a century ago. Certainly with the creation of the Fed, but well earlier in reality. Capitalism was replaced by monopolies in the US well before the 1800's were out

Most of all, what hard-earned global standing are you talking about? The US is a pariah to most places outside the western Empire now. There has been a massive rush to get out from under the US/City of London yoke from all over the planet since their Ukraine project failed

- A) These are Quotes.
- B) Mother told you that if you got nothing good to say say nothing.
- C) Like always you take the wrong thought and run with it...

Question: Do you do this deliberately or are you just that way...

Because if you don't get it which seems clear to me you should go and troll someone else...

Because nothing you say is related to this post.

Sorry guys if I talked to much today, but I enjoyed my various chats on various posts

Until little AI Fritz showed up that is, with his inconsistent and stupid comments that make him look foolish

So I hope that somebody running the blog notes all Fritz's ad hominem stupidity on this thread. And takes a more hardnosed
look at whether this clown is allowed to post here at all. He's been an irritating gobshite from his first post

I suppose that all goes against the spirit of this great place. But really, enough is enough

people for survival. Have you ever wondered why nobody likes you, or why you can't succeed, can I tell
you, honestly as a Scot who as you say suffers from depression. Rather used to. You are obnoxious. An
arsehole/asshole. If you go away, into your bedroom, with your pet Bearded dragon, and play you record
